Overview

This document contains a quick visual overview of the website.

About us

Futura Signs has been turning heads since 1986

Billboards Built to Last

We are specialists in billboards — it's our passion and our craft. From design to fabrication to installation, we build billboards that are made to last. Over the decades, we've become a trusted name in outdoor advertising, known for structures that stand the test of time.

Relocation & Refurbishment Services

For our long-term clients, we offer a unique service: billboard relocation and refurbishment. We'll carefully dismantle your billboard, store it securely, and give it a new lease on life at a fresh location — a rare offering in our industry.

Custom Signage Solutions

While billboards are our bread and butter, we also create a wide range of custom signage. If you need it, just ask — chances are, we can make it.

Your Trusted Signage Partner

We're a vibrant, experienced team that believes in doing great work and building lasting relationships. With a reputation for quality craftsmanship, excellent client service, and competitive pricing, Futura Signs is your reliable signage partner in Cape Town and beyond.

Let's build something bold together.
In fact, let's build this country!

Did you know?

37%
of drivers notice billboards

2 MILLION
monthly impressions from
passing vehicles

74%
of the urban population notice
outdoor ads

Billboards aren't just ads — they're a statement. They work like word of mouth, leaving a strong and lasting impression that digital noise can't match. In a world where anyone can post online for free, a billboard shows you're serious, established, and ready to be seen. It's the old-school, authentic way to prove your brand is the real deal.
